

Food, Enviro, & Cannabis QA & Safety Seminar Series

Wednesday, May 1st, 2019, 9:00 AM – 2:30 PM
Phenomenex Building 7, 2341 W. 205th Street
Torrance, CA 90501

Agenda

- 9:00 AM** **Arrival and Check In**
- 9:15 AM** **Welcome and Mass Spectrometry and Capillary Electrophoresis Technology Updates**
- 9:30 AM** **Advantages of Atmospheric Pressure Chemical Ionization for the Analysis of Pesticides in Cannabis**
Paul Winkler, Market Development Manager – Cannabis Testing, SCIEX
- 10:00 AM** **Proficiency Testing Program Implementation and Performance Options**
Ty Garber, Director – New Product Development, Phenova
- 10:30 AM** **Coffee Break**
- 10:45 AM** **Sample Preparation and Chromatography Method Development Considerations in Food/Environmental and Cannabis Testing**
Scott Krepich, Global Industry Manager – Food, Environmental, and Cannabis Testing, Phenomenex
- 11:15 AM** **Quantitative High Resolution Mass Spectrometry for Routine Testing? – Welcome to the X500R Era**
Loren Olson, Advanced Workflows Specialist, SCIEX
- 11:45 AM** **Lunch**
- 1:15 PM** **Streamlining Data Analysis and Reports with SCIEX OS (Live Software Demo)**
April Quinn-Paquet, Software Technical Applications Scientist, SCIEX
- 2:00 PM** **Roundtable Discussion – Analytical Challenges in QA/QC Safety Residue Testing**
- 2:30 PM** **Event Conclusion**
